## Auto Owners "Use" Tax S

Collector of Internal Revenue John L. Fahn issued a statement today which is of interest to the more than five hundred thousand owners of motor vehicles in Florida. Mr. Fahn called attention to a provision of the Revenue Act of 1941 which impos-

Collector Fahs stated that in the event the revenue stamps have been provided to evidence the use of a tax upon motor vehicle which tax becomes effective on February 1, 1942. It was explained that the term "motor vehicle" means all motor vehicle of the kind chiefly used for highway transportation, including automobiles, trucks and motorcycles, and that the term "use" means use on the public highways.

payment of this tax and the stamps are gummed on the back so that they may be affixed to the motor vehicles. The first stamp to be purchased by owners of motor vehicles will cover the period from February 1 to June 30, 1942, and will cost the purchaser only \$2.00 each because of the fact that only a fractional part of the fiscal year is involved. However, during the month of June, 1942, owners of motor vehicles must purchase stamps valued at \$5.00, to evidence the payment of the tax for the entire fiscal year beginning July 1, 1942, and ending June 30, 1943. Stamps of every

June 30, 1942. Stamps of appropriate denominations have been provided to evidence the payment of the "use" tax on vehicle

Collector Fahn stated that individuals who use tax exempt more than one class of Federal taxes combined. The payment of this tax will give

Chairman of the department is Mrs. C. F. Parvin of Manalapan who served for two terms as state president of the Florida Congress of Parents and Teachers. Other members are Miss Minnie Porter Harris of Rockledge who is Americanization chairman of Florida Federation of Women's Clubs.

V. Sowers of Lakeland, St. Petersburg National Education Association Citizenship Program; Dr. Alvin Geiger of St. Petersburg, St. Petersburg Citizenship Chairman of Florida Education Association; P. O. P. Detrick, of Bradenton, former District Educational Supervisor, CCC Camps, Atlantic Division.

To be chosen for this honor office out of so distinguished group is recognition of her work on citizenship and educational committees, and it is credit to the town to have as a representative selected for

## Tire Rationing Board In Belle Glade Is Ready

**Will Meet Each Tuesday  
and Friday from Ten  
To Eleven O'clock.**

Belie Glade's tire rationing board composed of Arthur W. H. Campbell, chairman, J. H. Chambliss and Roy Layfield, is organizing and functioning and meets every Tuesday and Friday morning at the Town Hall from 10 to 11 o'clock.

The method of procedure to get the tires for a vehicle qualified for rationing rules is this: First go to a tire dealer who has a tire in stock that will fit your vehicle and make a deal with him for the tire or tires. He will supply you with an application blank which should be filled out and then you can purchase the tire. After this is done the tire dealer will tell you who is the nearest inspector for the rationing board and you then go to him and have the tire or tires to be rationed inspected. After this is

When they meet they will decide whether or not you are eligible for new tires, according to the

classification of your vehicle at the report of the tire inspector as to the condition of your tires.

Application blanks have full information as to the type of vehicles which will be considered for re-tiring. They include those of doctors, nurses, fire engines, ambulances, police cars, cars used for transportation of fuel and ice and garbage, peace officers cars, mail trucks, buses and truck line vehicles.

St. Mary's Altar Society, the Catholic church volunteer group, is sponsoring the program to supply the rationing books with a secretarial service and Mr. Carl Lockmiller then volunteered to supply the rationing books.

ed to serve the board for the duration of the emergency without compensation. The board members received no pay.

---

## Belle Glade P.T.A. Hold Regular Meeting

The regular meeting of the Belle Glade Parent Teachers Association was held in the library room of the high school Monday afternoon with Mrs.

W. Rashley presiding. Reports from committee chairmen included that of Miss Elizabeth Thompson, music chairman, who announced that she is organizing a PTA chorus which will be composed of men and women.

Prof. Lewis Bartlett explained the air raid rules and regulations, pointing out that these instructions are not adequate to cope with the existing conditions here and the following committee was named to discuss the situation: Dr. Thomas Bregger, Mrs. R. A. Kiddler, Mrs. Hampton Ho-

The group voted to raise the salary of Mrs. Mike Murray, manager of the school cafeteria, from four dollars per week. Mrs. Lewis Murray announced that

the study course will organize a school team to study the Constitution of the United States. She has announced that she will teach a junior course in First Aid to school children.

... BUY BONDS

**Make no mistake—this is a life or death struggle. Men are dying in your defense. Dying that America may be safe!**

**Give our fighting men the guns, the planes, the tanks they need! Bonds buy bombs. Every dime, every dollar you put into Defense Bonds and Stamp is a blow at the enemy. Hit them where it hurts—buy bonds! Bonds cost as little as \$18.75, stamps as little as 10 cents up**

## Set-Up Efficient In Black-Out Test

All Deputy Air Raid Wardens Report Fine Cooperation

At a meeting Wednesday night in the old school auditorium, the air raid wardens of the Be Glade area met and reported the Sunday night blackout. It was unanimously reported that the people cooperated 100 percent and that the practical blackout was a success. On a few cases were reported of

"Our blackout was more nearly perfect than we could have expected," according to Dick L. Fils, chief air raid warden. "The cooperation of the public was

the various wardens was as much as we could hope. The wardens, with a few corrections, functioned as outlined by the book. Gurkin and Mike Murphy, the message center with the bicycle dispatch riders "carried mail." Chief Lloyd's special, auxiliary policemen, were under the job. The special deputy under Deputy Moten were in charge of way places to control traffic and keep order. About all, before the siren ceased, "two minute" intermittent bicycling, our territory was all out.

Dieck has divided his territory from Cardwell on the north to 20-mile bend on the east, covering a line on the west and south into 30 chief wardens sections. Each of these chiefs has from three to seven wardens. So it is apparent that his organization is better than 150 persons alone.

The communications system includes telephone, bicycle motorcycle messengers.

The entire system is set up so that within ten minutes

tor command wardens are notifying individual homes of warning. It has been pointed out that probably Belle G

will never need this elaborate system but that if it is needed, an efficient system is what is wanted.]

South Bay and Lake Harbor each have a set-up of its own, and are dependent only on the Glade for notification of flares.

Several hundred Glades people are enrolling in the Red Cross first aid classes as it is a requisite for every person on the defense council in whatever

**Pays Fee**  
Circuit Judge H. L. Tom bring of Gainesville, candidate for the supreme court to sue Justice J. B. Whitfield, paid a qualifying fee of \$225 to Secretary of State R. A. Gray.

PTA Entertainment  
Up On Tuesday

P. E. Goodbread, Mrs. C. Cook, Mrs. V. N. Greer, Alvin Graff and Mrs. Alexander, luncheon committee; R. L. Lovell and Mrs. C. Yon, hospitality committee.

Announcement was made the next regular meeting will be an evening session on Feb. 1 at which time Founder's will be celebrated. Mrs. F.

Mutchler will be in charge of the program for this meeting. Bay was decided to start a course in connection with regular monthly meetings.

to devote the first 45 minutes of each meeting to this work. Afternoon meetings will be held at 3 o'clock hereafter instead of at 3:30 to give sufficient time for this work. The first number of the study course will be given in the February session.

The seventh grade, under the direction of Miss

won the attendance prize for the month. Mrs. V. N. Green was appointed treasurer for the remainder of the term.

**Rubber Restrictions To Hurt**

The war comes closer home to millions of Americans with the order prohibiting the sale of automobile tires to almost everybody. And in the meantime, now begun, some are sure to be hurt through necessity, but we know the local rationing board has no other course open.

While the United States has acquired a stockpile of crude rubber to meet basic war needs for more than a year, there is not nearly enough for unrestricted civilian consumption. Meanwhile, the Japanese have gained control of certain Malayan areas on which rubber plantations are situated and their naval and air superiority in the Far-East threatens the supply lines that connect us with ninety-five percent of the world's crude rubber supply.

It is interesting to observe, in connection with this situation, that if the defenders of the Far East apply a "scorched earth" policy, the rubber plantations it will require between ten and fifteen years to again provide sufficient crude rubber for the normal needs of the world. This might mean that our way of life might be changed as a result of the war.

**Reluctant Fighters**

The war against the Axis aggressors has been going on since September, 1939. The fact that the war still continues is due entirely to the courage and fortitude of the British people who resolutely accepted their stern duty, in the face of terrible danger and decided to continue the fight in June, 1940.

We should also recall that the Soviet Union is now fighting the foes of democracy solely because the German army invaded Russia on June 22, 1941, on a front from the Arctic ocean to the Black sea and the Soviet had to fight or accept serfdom.

The Americans who insist that Russia should launch an attack upon Japan from Vladivostok should recall that this country is now involved in war almost solely because we were attacked by Japan and the other Axis powers. Like Russians, we were reluctant to become embroiled in the conflict and anxious to avoid bloody war, if possible.

Of course, both Russia and the United States defend their former non-belligerency upon the ground of unpreparedness for the ordeal but both have discovered that they are unable to escape the inevitable consequences of permitting outlaw nations to attack and destroy peace-loving neighbors.

**Sugar Hoarders**

During the fifteen day period beginning on the Monday following the Jap attack on Pearl Harbor, a month's supply of sugar was bought by the American buying public.

In other words: for every five pounds of sugar that was bought to feed us Americans, another five pounds of sugar was bought to hoard.

A small group of buyers who anticipated a shortage of sugar bought up large quantities, so that they would not have to suffer with their fellow-Americans if a shortage should come. To us, this group of hoarders was not only unpractical in the attempt to escape its share of sacrifices but also out of harmony with the American spirit.

**Mexico Proves a Friend**

In the rush of more important events, the people of the United States have, to some extent, overlooked the actions of Mexico and other Central American countries in coming to the support of this country in the present world crisis.

It is interesting to observe that Mexico severed diplomatic relations with Bulgaria, Rumania and Hungary because these countries had declared war on the United States.

Not many years ago it was the common belief among many responsible officials of this country that in the event of war, Japan would promptly establish bases on the west coast of Mexico and it was believed possible that the Mexicans might passively permit such action against the United States. This opinion flourished during the strained diplomatic relations which existed between the United States and Mexico but today, thanks to an enlightened policy of forbearance, the United States is happy to be able to count Mexico among its good friends and to rely upon the Mexicans to assist in the necessary steps to protect Mexico territory from being used by the enemies of the United States.

We hope the New Year will be good to our subscribers and, also, that our "dear" subscribers will be good to us!

When a stranger is too polite and attentive, put your hand on your pocketbook and keep it there—there's anything in it.

You may not be able to legislate morals into people but you can sometimes make them fear the consequences of doing wrong.

People who plan for their future usually succeed better than those who do not, but there is no law which requires you to make such plans.

Almost every busy man knows the importance of exercise and recreation but few of them stop long enough to put their knowledge into practice.

**THE GEOGRAPHY LESSON**

**CLOSED SHOP**

Beggars find it easier to bamboozle the public than to work for a living. When you feel like giving money to charity, be sure that you give it wisely.

Those citizens who declare they are "too busy" to do an active part in the civic work of this community spend much time in criticizing those who do their part.

Promises are much easier to make than to fulfill, but people continue to make them carelessly.

**Prob'ly Facts**

By DICK LEFELS

Well it looks like the country is in for an awful expansion in some places as well as a let down in the hips, for there is a possibility in the near future of being unable to get goods for the time, due to a shortage of raw rubber, and that we will be doing considerable more walking than what we have been doing unless you are able to equipt yourself up with the following seven classifications of: (1) vehicles used by medical men and nurses; (2) ambulances; (3) police, fire, mail, and garbage trucks; (4) ships; (5) trucks for ice and fuel delivery, and repair services, and common carriers for goods moving directly to the household; (6) farm tractors and implements; (7) industrial, mining and construction equipment.

But there one consolation about the new ruling, it won't affect us older ones like it will the younger set, for we can always haul off our engine and carry home what we forgot to carry the day before.

The scientist are busy day and night trying to get the best out of everything one of the latest discoveries is for the girls to smear their perfume on the back of their ears for best results of the sniffer, instead of dabbing it around over their face in a haphazard way.

One of the awfullest things that has happened to a poor man lately is a medicine that is recommended to take away the desire from fellow who fails to drinking now and then. The serum is injected for the treatments, so if you heavy drinkers feel something like a mosquito nipping you at night, think nothing of it for it'll probably be your Moscoe or the landlady giving you the backsliding treatment.

The Belle Glade territory had a successful blackout Saturday night for about three hours, due to the line falling between here and Palmetto. Thank goodness the line falling took place on this side of the powerlines, for if it hadn't I don't suppose we would have had any of the so called sunshine service yet, that the power company boasts so proudly of giving each customer.

Sunday night following we practiced a complete blackout for thirty minutes, and I don't believe that the people could have cooperated with the warden and the Defense Council with any more willingness and success than it had of been of the real thing. For shortly after the siren blew the signal to "outpost" the neighborhood was engulfed with darkness of a cave far underneath the ground, and when your eyes became accustomed to the darkness the only lights you could see here and there was the flickering of the blue flashlights of the wardens over the different districts.

The shadow forms of the people that didn't get off the streets could be standing around, moaning about silently in the dark, with their hands in their pockets and their collars turned up against a cold north wind, give the town the atmosphere of a graveyard on a cold dark night.

On discussing the hardships of wars with an old Civil War Veteran, old soldier turned a lot red under the gills and said, "Yep, yep, yep, but you ain't heard of no hardships, there's an old saying the Army always travels on its stomach, but I traveled high on that for years on my travels with a promise of ten dollars a month, and maybe something to eat, and some time I had a chance to sleep with a loss and blanket for a bed fellow."

The slogan that the defense council has adopted? "work or fight" to encourage labor to work a little more than three days a week, was being nailed up on a bulletin in the warner room quarters. The armer on reading the slogan said "That fits my negroes alright for when they are not working they are fighting."

There is quite a few First-Aid courses being given over the county, one is being taught at the old school house auditorium for the adults on Monday and Thursday nights of each week by Roy A. Pough. Altho the class is open to anybody even the doctors, but it is more or less necessary for all of the air wardens to take it.

The special deputies that was appointed by the sheriff of Palm Beach county in the Belle Glade district for the duration of the blackout run an awful good chance of being picked up for an imposter of impersonating an officer, for they wasn't worn in nor given a badge. But after all it showed that the sheriff was willing to cooperate even if he didn't have much confidence in the voters, or should I say in the selection of his appointees.

The thousand dollar put r bond that required of a produce broker to put up with the state department in Tallahassee is no less than a joke or shoe shine money to some of the deals that are carried on in the vegetable game. For one of the supposed to be reliable produce brokers from out of the state stuck the Glades

commission men and farmers with seventeen thousand dollars worth of worthless rubber checks this winter just before the shortage of rubber came into effect.

Ten cents in defense savings stamps will pay for five cartridges, 15-caliber.

**All-Day Session**

South Bay—The Woman's Home Demonstration Club will entertain the members of the Senior County Council on Thursday, Jan. 28. The business session will open at the Community Methodist church at 10:30 and continue until one o'clock. A covered dish luncheon will be served shortly after one at the social cafeteria. During the afternoon a tour of the Glades will be made during which the Sugar House at Clewiston and the parking house district will be visited.

 Eighth Grade, Sonny Smith  
 Ninth Grade, Frances Maltuch  
 Tenth Grade, Gloria Wells  
 Eleventh Grade, Duane Landroff  
 Typist, "Teenie" Torbert

**ASSEMBLY**  
 On Friday, January 9, the assembly program was held in the school auditorium. Mrs. Hardy's section of the tenth grade was responsible for the program. Gloria Wells read the Bible and led the Lord's prayer.

and played to the flag. Mrs. Campbell led the group in singing "America" and Mrs. Johnson played the piano accompaniment. Ruth and Helen Ratley, Elizabeth and Mellicie Cunningham, Gloria Ingram and Ruth McEddy sang "The Lord is My

Shepherd."  
 Mr. Bartlett introduced Rev. J. E. Dillard, pastor of the Baptist church, who gave a very interesting talk on Patriotism and just what we can do to help our country.

Mr. Bartlett commended us all for the splendid drill we had that morning. He then introduced one of Belle Glade's First Aid instructors, Mrs. Murray. At must every student wanted to take the course, so she appointed Clarence Kaddor, an eagle scout, Ann Hill, a girl scout, for the girls.

Students then went to their third period classes.

**SOCIALLY SPEAKING**

The Misses Julia Daub and Glennia Betner entertained a few friends at Miss Daub's home on Friday, January 9.

A patriotic program was carried out with games and dancing. Mr. Armstrong was the prize for making the most words out of National Defense.

Refreshments were enjoyed by the Misses Gloria Wells, Ruth McEddy, Katherine McLeod, Teenie Torbert, J. Orer, Herbert Priest, Calad Warren, Tom Lloyd, Leroy Abenshugh, Calvin Minims, Shorty Shriver, Eugene Hatcher, Pickens Woodward, Eudon Armstrong and the hostesses.

**7th GRADE NEWS**

Robert Taylor and Barbara Will are both home with the measles. We hope they are able to be with us again soon.

The seventh grade had their Christmas party Friday, Dec. 19, 1941. Mrs. Darden, Miss Brown and Mrs. Taylor were chaperones.

The seventh grade is glad to leave Monroe Strickland back after being absent several weeks from an appendicitis operation.

**JUNIOR XMAS PARTY**

The Junior class had a Christmas party Friday night, December 19. Members of the Sophomore class also attended. The program consisted of dancing and dance-prizes.

Drinks and cakes were enjoyed by everyone. Mrs. Torbert supplied the cakes and the Junior class furnished the drinks. Miss Geraldine Thomas and Mr. John Martin Harrel were the chaperones.

**WHAT DEMOCRACY MEANS TO ME**

By Gloria Wells  
 A Democracy is a "government of the people, by the people and for the people," and it is the duty of all Americans to see that it does not perish from the earth. They should, no matter what their view points or attitudes, love and fight for their democracy. Many of us do not understand that the United States is the last stronghold of democracy, we would appreciate it more.

The millions in Europe who have suffered under Hitler's brutal whip would think of a chance to come to America only in their wildest dreams.

Here in America we receive our mail, our news, our newspapers have the right to print the truth whatever it may be, and we may join any political party. We are free to express opinions openly even if against government measures.

If we will take time to think through the meaning of our liberty, equality, and justice we cannot help but see how we are blessed. But some of the people of this country have thought no further than to the Germans when the Nazis were getting under way. The Germans wanted to protect their property, as who doesn't? They paid money to a political leader named Hitler who exalted democracy and promised them that their property would be secure. The next they know only too well. Let us not follow their example.

Why is it that people do not realize how great is something they possess until it is taken away from them? Most of us accept our freedom and democratic rights as natural, rightful inheritance, enjoying them in peaceful contentment. We take those rights for granted, not realizing that our forefathers had fought and struggled and sacrificed to attain them. For anything so valuable, a price must be paid. They paid it many times and now it must be paid again. Again, the saying, "nothing worth having is worth fighting for."

The American people have always been great patriots and although unused and disarmed in political, religious, industrial and in almost all civic matters,

in the face of a national emergency all differences and individual interests are forgotten and Uncle Sam's children all pull together.

During the war the defense program will prevent many things from being obtained that we need and want; the war taxes will seem more than we can bear, there will be many trials and hardships, and worst of all, thousands of brave, true Americans will die. But they will not die in vain, for through it all we will courageously carry on and in the end, democracy will triumph over dictatorship, there will be an upward sweep of civilization, and there will be peace on earth.

We are fighting to preserve our democracy, a war whose victory shall be ours because democracy is right, and the right things must live and not die.

### WILLIS WAILS

(Continued from page one)  
 And you can bet that with "Pop" and Neal doing the picking of the crews you'll find the "cream of the crop" working on their revery bells. The only thing is that they are experiencing some competition this year from the boys in the Federal-State inspection service. My dough still rides on "Pop" and Neal to emerge the winner.

### CITIZENSHIP MEET

(Continued from page 1)

Other interesting features were round-table discussion for Citizenship leaders and teachers; given citizens seeking citizenship, conducted by Mr. James B. Watkins, Senior Examiner, Immigration office, Tampa; and visitation and observation of Citizenship training classes in other cities and West Tampa.

Mrs. Murray quotes from notes taken from talks by these leaders: "It is important that we reexamine our own concepts of

Democracy and do our part to prepare noncitizens seeking citizenship, or new citizens to understand the duties and the responsibilities as well as the privileges and opportunities of citizens of the United States." "There is a responsive and responsible citizenry awake to their duties. Democracy will face defeat." "There must be a unanimity of spirit in support of our common cause." "Education is necessary to defense, not only to equip America to win a war, but to live and prosper in the American ideal." "He who understands Christianity knows Democracy best." "In the years of peace that stretch ahead, education is necessary to understand and conserve our cherished ideals of Liberty and Justice."

Mrs. Murray says that Florida is now faced with the problem of serving the needs of 39,000 aliens now in the state and the citizens of Florida are urged to be tolerant and prove their faith in human liberty, equality, and fraternity. To suppose judgment until the facts are known; to resist prejudice; to permit our intellect to rule our feelings; and to remember always that it was our ancestors, immigrants from many countries, who founded our Democracy that gives to all the rights of Life, Liberty and Happiness.

### AUTO OWNERS

Fixed checks will not be acceptable in payment therefor.

It was pointed out that the law provides severe penalties in the case of any person liable for the "use" tax who fails to purchase a stamp and affix it to his vehicle. Collector Fain stated that the stamp could be affixed to the instrument panel of the vehicle to be taxed, or to the rear vision mirror, or in the event local regulations would not be violated, the stamp might be affixed to a suitable place on the windshield or to the rear or side window, or to such other part of the vehicle where it would be conspicuous and would not become mutilated or detached.

women. Age limits are 16 to 50. "Trainees will be appointed at a starting salary of 1400 a year. They will attend school, full time, for approximately six months. At the completion of training, promotions will be made to the position of Junior Repairman, Signal Corps Equipment, at a salary of \$1620 a year. Further advancement possibilities are excellent, the announcement said.

Applications will be accepted immediately by the Civil Service Commission. Present plans call for the training program to begin next month. Experience requirements are one of the following: Possession of a license to operate an amateur radio station, or of higher grade, and experience in building a receiver and transmitter; six months of full time, paid experience in some branch of technical radio work, or related electronic work; completion of two scholastic years of an electrical, telephone, or radio repair course in a vocational school or senior high school; completion of a six months course in a resident technical radio school; completion of one year of resident study in engineering or technology with a course in radio in a college or university; completion of a defense training course in telephonic or radio work.

Full information may be obtained from the Secretary, Board of U. S. Civil Service Examiners, at any first class or second class postoffice in the Fifth U. S. Civil Service District, or from the Manager, Fifth U. S. Civil Service District, New Post-office Building, Atlanta, Ga.
